Professional Summary

Dynamic production and operations leader with 10+ years of supervisory experience in high-tech manufacturing, military, and financial environments. Proven ability to lead cross-functional teams, optimize production efficiency, and implement, safety, leadership, inventory control, and process improvement within fast-paced, high-volume operations. Recognized for developing talent, driving operational excellence, and delivering measurable results that support organizational growth. Currently pursuing an MBA in operations & supply chain management and certified Six Sigma Green Belt.

Professional Experience

Tesla, Inc. – Austin, TX **Lead Production Associate**

2022 – Present

- Supervised 18 associates across 4 Cyber truck productions stations, achieving the fastest takt times, highest accuracy, and lowest defect rates, reducing cost per unit and material waste.
- Directed 20+ root cause investigations, eliminating the top 3 causes of line stoppages in Q1 2023, directly supporting the successful Cyber truck launch.
- Monitored and improved KPIs (takt time, OEE, scrap rates), boosting line throughput by 15% and reducing defects by 10%.
- Trained and certified 50+ associates across multiple workstations.
- Ensured 100% compliance with 5s, PPE, and safety protocols while streamlining MRB root cause analysis and shift handoffs.
- Implemented Lean and Six Sigma principles to drive continuous Improvement, material savings, and reduced downtime.

JP Morgan Chase Bank – Austin, TX **Relationship Banker**

2017 – 2021

- Promoted three times and selected to chair the Veterans Employee Resource Group for Austin Metro area servicing 53 bank branches.
- Built strong cross-functional partnerships and problem-solving skills through daily operations and escalations.

United States Navy – Jacksonville, FL **Petty Officer Second Class, Damage Controlman**

2008 – 2016

- Supervised and maintained emergency systems across multiple technical platforms.
- Led a team of 13 maintenance personnel in daily operations, overseeing troubleshooting, preventive maintenance, and major system repairs to ensure mission readiness and equipment reliability.
- Trained and qualified over 1,200 sailors in safety and emergency systems readiness as lead instructor for Damage Control University.
- Served as Emergency Repair Team Leader, responsible for training and leading a 16person firefighting team; provided expert guidance in emergency response, damage control, and safety procedures during high-risk operations
